

First Announcement

Southern Africa Regional Climate Services Workshop

SAVE THE DATE

Observation Requirements for the Global Framework for Climate Services GFCS

29 November - 2 December 2016

Victoria Falls, Zimbabwe

- Overview of existing climate services and capacities of NMHS in the Southern Africa region
- User-expert dialogue in the areas of food security and agriculture and disaster risk reduction
- Compilation of existing and required data for climate services and potential added value through regional cooperation
- Underscore the fundamental role of climate observation for reliable climate services
